KOLB STUDIOEQUIPMENT

# Kolb Mobile ClayHeater IRT 4-2

## Description

The new and innovative Kolb Mobile Heater in Kolb Design special painting has a continuous laser function, as well as a pyrometer for an exact temperature surveillance of the clay surface. Due to infrared technology the clay will be heated thoroughly in order to ensure a ideal base for the new layer of clay to be applied. The special protection glass covering the infrared elements protects the lamps against clay flakes.

## Product Highlights

- Kolb Version
  - CLF Continuous Laser Function
  - Kolb special painting
  - Protection glass
- Specific possibilities for positioning the cassettes
- Computer-controlled heating
- Pyrometer for exact temperature control
- Laser circle displays, where the temperature measuring is effected
- Electronic distance control
- Efficient air filter in the cassettes

## Technical Specifications

	Art. No. Kolb Mobile Heater IRT 4-2
<b>Temperature control</b>	yes
<b>Voltage</b>	400 V
<b>Phase</b>	3
<b>Power</b>	12 kW
<b>Digital</b>	yes
<b>Distance control</b>	yes
<b>Continuous Laser Function</b>	yes
<b>2 swivelling heating elements</b>	yes
<b>Working surface</b>	2,000 x 1,100 mm
